ABHISHEK SHARMA

Business Analyst | Payments & Banking Domain | ISO 20022 | SWIFT Messaging

Hyderabad, India | +91 8385904281 | shabhi2792@gmail.com

PROFESSIONAL SUMMARY

Business Analyst with 9+ years of experience across Banking and Payments operations, including 4+ years of dedicated Business Analysis experience within the Payments domain. Proven track record across the full software development lifecycle — requirement elicitation, stakeholder management, field-level mapping, and regulatory-driven payment system migrations. Deep working knowledge of SWIFT MT/MX messaging, ISO 20022 migration, and cross-border payment rails (SEPA, CHAPS, ACH, Fedwire, Target2).

KEY SKILLS & EXPERTISE

Business Analysis: GAP Analysis, BRD/FRD Documentation, Requirement Elicitation, User Stories, Process Modeling

Payments Domain: SWIFT Messaging, ISO 20022, Field-Level Mapping, SEPA, Target2, CHAPS, ACH, Fedwire, Cross-Border Payments

Stakeholder & Delivery: Stakeholder Management, UAT & Functional Testing, Agile & Scrum, Cross-Functional Coordination

Emerging Tech: Agentic AI (Accenture-certified), Process Automation

PROFESSIONAL EXPERIENCE

Business Analyst (Custom Software Engineering) *Apr 2026 – Present*

Accenture | Engaged on a US-based Banking Client account

- Earned Accenture's "Reinvention with Agentic AI" certification, building applied capability in agentic AI concepts and their application to financial services delivery.
- Maintaining continuity of payments domain expertise (ISO 20022, SWIFT MT/MX, cross-border rails) through self-directed learning and internal knowledge-sharing sessions while preparing for active project assignment.

Business Analyst / Payment Expert – Senior Analyst *May 2023 – Mar 2026*

Deutsche Bank, Jaipur

- Part of the ISO 20022 Migration initiative for APAC & EMEA regions, ensuring seamless transition from SWIFT MT messages to ISO MX messages.
- Led business analysis for the enhancement of SWIFT message screening software, with the objective of increasing Straight-Through Processing (STP) rates and strengthening automation engines to reduce manual intervention in transaction screening workflows.
- Created and maintained detailed field-level mapping and mapping requirement documents, translating SWIFT MT fields to ISO 20022 MX structures to support development, testing, and compliance needs.
- Assisted in reviewing and validating alerts generated by transaction monitoring tools and sanction screening models for false positives.
- Collaborated with cross-functional teams to ensure alignment and effective communication.
- Conducted Gap Analysis, Impact Assessments, and Risk Mitigation Strategies to streamline payment processing and compliance adherence.
- Documented business requirements, epics, and user stories in JIRA, ensuring clarity in development and testing phases.
- Supported UAT and functional testing, ensuring compliance with regulatory and business requirements before go-live.

Business Analyst / Senior Executive *Sep 2022 – Mar 2023*

Fareportal India Pvt. Ltd., Gurugram

- Analyzed existing payment gateway integrations, identifying bottlenecks and friction points to improve checkout experience.
- Worked closely with IT, Finance, and Product teams to upgrade payment systems.
- Led UAT for new payment features, ensuring seamless functionality and improved user experience.
- Coordinated integration of multiple payment gateways, enabling various payment methods (credit cards, digital wallets).

Business Analyst – Payments Domain *Dec 2021 – Aug 2022*

Infosys BPM Ltd., Jaipur

- Led the end-to-end migration of SWIFT, SEPA, and ACH payment processing systems for a US-based bank, ensuring compliance with global and regional payment standards.
- Collaborated with Product Managers, IT teams, and Operations to gather and define business requirements for high- and low-value cross-border and domestic payment systems.
- Ensured seamless data mapping and integration between legacy systems and modernized payment platforms, maintaining accuracy and regulatory compliance.
- Conducted User Acceptance Testing (UAT) focused on payment flows including SWIFT MT/MX messages, SEPA credit transfers (SCT), and ACH file formats.
- Developed comprehensive training documentation for payment processing modules and conducted user training sessions to support operational readiness.

Process Specialist – Payment Operations *Jul 2021 – Dec 2021*

Infosys BPM Ltd., Jaipur

- Handled the processing of SWIFT (MT103/MT202), SEPA, and ACH payments for a US-based bank, ensuring accurate and timely execution of cross-border and domestic transactions.
- Identified and implemented process improvements to enhance payment operations efficiency, including automation and error reduction initiatives.
- Created and shared daily, weekly, and monthly payment operations dashboards with leadership and clients, highlighting volumes, SLA performance, and exception handling metrics.
- Trained new hires on payment procedures, SWIFT/SEPA message flows, and compliance protocols to maintain high-quality processing and accuracy.

Process Developer *Dec 2017 – Jul 2021*

Genpact India Pvt. Ltd., Jaipur

- Handled the processing of SWIFT (MT103/MT202), SEPA, and ACH payments for an Australia-based bank.
- Ensured accurate execution of SWIFT and local clearing payments, maintaining operational controls and minimizing payment rejections or delays.
- Designed and maintained payment operations dashboards to report transaction volumes, turnaround time, error trends, and compliance metrics to internal stakeholders.
- Supported the US SBA CARES Act payment disbursement initiative during the COVID-19 pandemic, processing and validating government aid payments under strict SLAs.

Tier 2 Support Executive *Jun 2016 – Sep 2017*

Teleperformance, Jaipur

- Acted as a frontline contact for retail banking customers, assisting with queries related to domestic and international payments, standing instructions, and direct debits.
- Supported customers with payment tracking, resolving issues related to delayed, failed, or duplicate transactions across ACH, SWIFT, and card networks.
- Provided guidance on payment limits, fees, currency conversions, and cutoff times for various payment types including wire transfers and scheduled payments.

- Helped customers initiate or cancel fund transfers, set up recurring payments, and understand chargeback and dispute processes.
- Collaborated with back-office teams to investigate and resolve payment exceptions, ensuring timely communication and resolution for customer concerns.
