Hyderabad | Jan 2025 - Present

- Led **end-to-end client research** engagements for **market research agencies** working with **worldwide B2B clients**, focusing on **qualitative and quantitative insights** for **digital transformation and client engagements**
- Manage **end-to-end market research projects** from proposal development to final delivery. Understand **client business objectives, research requirements,** and **key success metrics** to provide regular status updates
- Act as the primary point of contact for clients and stakeholders throughout the engagement and develop qualitative and quantitative research methodologies aligned with client objectives

Project Manager – Research & Consumer Insights
Evalueserve Pvt. Ltd. | Gurgaon | Dec 2023 – Jan 2025

- Lead end-to-end **deployment of Gen AI digital transformation solutions** and **strategic market intelligence initiatives**, **customer engagement, market penetration**, identify **competitor positioning**, and capture **emerging trends**, shaping **brand differentiation** and **innovation strategies**
- Managed **requirement gathering workshops, business discovery sessions**, and **Gen AI solution design** discussions to translate business problems into AI-enabled transformation initiatives
- Developed **executive-level performance dashboards** and KPI frameworks to track **commercial performance, customer engagement, operational efficiency**, and **revenue growth** across **worldwide B2B clients' business operations**

- Partnered with senior leadership and business stakeholders to identify high-value **Gen AI** use cases across **customer experience**, **operations, marketing, sales, and knowledge management** functions
- Orchestrated **go-to-market strategies** by **leveraging market research and consumer insights**, enabling clients and senior stakeholders to achieve **25% revenue growth** in new product segments
- Designed and implemented **robust research frameworks** ensuring **methodological rigor, statistical reliability, ethical compliance, and business relevance**. Optimized **project delivery timelines** by implementing **Agile, Scrum, and Kanban** methodologies
- Recommended appropriate research methodologies, including **correlational analysis, experimental design, behavioral analysis,** and mixed-method approaches**. Identified opportunities and implemented practices** to **support business growth** and **enhance operational efficiency**
- Led **stakeholder engagement** across **senior leadership, effectively communicating insights, influencing decision-making,** and ensuring **adoption** of **analytics solutions**

Senior Analyst – Project Management - Strategy & Consulting
Accenture Strategy & Consulting | Bengaluru | Oct 2021 – Nov 2023

- Led **end-to-end delivery** of **Generative AI consulting engagements**, managing project scope, timelines, budgets, governance, and stakeholder communication across enterprise clients
- Delivered **data-driven executive narratives** and strategic insights for **worldwide B2B clients** by translating complex analytics into actionable recommendations for senior leadership and cross-functional stakeholders. Supported **strategic prioritization, demand forecasting, resource allocation, capacity planning**, and **budget visibility** through insight-backed business analysis and **predictive performance** modeling
- Drove continuous improvement initiatives by **standardizing AI delivery frameworks**, **best practices, and enterprise knowledge repositories.** Facilitated **proof-of-concept (POC)** and pilot initiatives to validate **Gen AI operational feasibility** and **enterprise adoption readiness**
- Orchestrated end-to-end **Gen AI digital transformation** initiatives, analyzing **brand, product, competitor, and category-level conversations** to identify opportunities, risks, and market trends.
- Enabled multi-million-dollar **consulting engagements** by delivering **competitive benchmarking insights** and **market intelligence analysis.** Delivered **strategic advisory inputs to senior stakeholders**, shaping **brand strategy** and **customer engagement models**
- Analysed **financial statements, cash flow models, R2R and key performance metrics** and prepared **due diligence reports** to assess business viability and identify risks and value drivers. Identified **financial and operational risks**, providing actionable mitigation strategies to stakeholders.
- Introduced **AI-enabled automation and insight workflows**, significantly improving insight and **operational efficiency** to enable integrated demand generation and growth planning. Applied advanced analytical and problem-solving capabilities to derive strategic insights from data sources
- Strengthened **sales enablement and strategic planning initiatives through evidence-based recommendations, customer insights, market analysis, and competitive intelligence.** Provided **market intelligence** and **customer insights supporting strategic business decisions**

Analyst – Project Management - Market Research & Insights
Global Data Research Center | Hyderabad | Jan 2018 – Oct 2021

- Developed **insight-led business recommendations** for **worldwide B2B clients** that improved **customer understanding, strategic planning, operational effectiveness**, and **market positioning**. Established **strong domain context** and business relevance within research reports to align with client strategic goals
- Tracked **cross-functional dependencies, business risks, remediation actions,** and **operational milestones** to ensure timely execution of **strategic initiatives** and **business transformation programs**. Partnered with senior business leaders to support **strategic planning, growth initiatives, customer lifecycle optimization, and commercial excellence program**s in highly matrixed global environments
- Implemented **Agile/Scrum project management** methodologies to streamline **sprint planning, backlog prioritization, risk mitigation**, and **cross-functional collaboration**
- Enabled leadership teams with **actionable business insights, scenario analysis, forecasting models**, and strategic recommendations to improve operational performance and accelerate growth initiatives. Leveraged **advanced analytics, business intelligence**, and **reporting tools** for executive reporting, forecasting, and strategic analysis
- Identified **risks, dependencies, and operational challenges** impacting **AI implementation** and proactively developed **mitigation and contingency strategies.** Supported business development initiatives by contributing to **AI consulting proposals, RFP responses, capability presentations, and client solution demonstrations**

Business Analyst – Research, Consulting & Product Development
Algo Energytech Ventures Pvt. Ltd. (Now Xempla) | Kolkata | Jul 2017 – Jan 2018

- **Analyzed** large-scale consumption and performance datasets **to identify cost optimization opportunities and operational inefficiencies**, resulting in **improved resource utilization and measurable cost savings across business operations**
- **Developed** advanced analytical frameworks and interactive dashboards **to support product development strategy and financial decision-making**, enabling **leadership teams to monitor KPIs and accelerate data-driven decisions**
- **Enabled** data-driven transformation initiatives **by supporting analytics-led projects focused on operational performance and customer value delivery**, contributing to **enhanced process efficiency and improved business outcomes**

Assistant Manager – Research & Consulting
E-Cube Energy Trading Pvt. Ltd. | Kolkata | Jun 2015 – Jun 2017

- **Led strategic research-driven consulting engagements** to analyze operational performance and identify optimization opportunities, **enabling industrial clients to improve operational efficiency and drive sustainable performance improvements**
- Designed and implemented **advanced analytical models and BI dashboards** to evaluate **operational inefficiencies** and productivity gaps, delivering actionable insights that unlocked measurable **productivity gains** and **process improvements**
- Delivered **data-driven strategic recommendations** by synthesizing market research, operational analytics, and performance metrics, **supporting revenue growth initiatives** and **operational efficiency** enhancement for industrial sector clients
