PROFESSIONAL SUMMARY

Business Analyst-oriented Transaction Banking professional with 10+ years of experience across Cash Management, Trade Finance, Payments, and Supply Chain Finance (SCF) within corporate banking. Hands-on expertise with ICICI Bank's full CMS and Trade Finance digital product suite — including eCollections, Pay2Corp, IPS, Host-to-Host, NACH/e-NACH, i-BOE (IDPMS), e-BG (SFMS), and Corporate SWIFT MT798. Deep domain knowledge in Letters of Credit (Import/Export), Bank Guarantees, IDPM, EDPMS, SWIFT MT103/MT202/MT760, and domestic payment systems (NEFT, RTGS, IMPS, UPI). Proven experience in BRD/FSD documentation, AS-IS/TO-BE process mapping, gap analysis, stakeholder coordination, and SIT/UAT support — acting as the functional bridge between business users, operations, and technology teams.

CORE COMPETENCIES

Trade Finance (LC / BG / SBLC)	Cash Management & Payments	Supply Chain Finance (SCF)
SWIFT · MT103 · MT202 · MT760 · MT798	BRD · FSD · SIT/UAT · Agile/Scrum	IDPM · EDPMS · RBI/FEMA · UCP 600
Stakeholder Management	**Process Mapping (AS-IS/TO-BE)**	**ISO 20022 · API Integration**

PROFESSIONAL EXPERIENCE

Business Analyst — Transaction Banking | ICICI Bank, Bengaluru *Nov 2022 – Present*

Cash Management & Payments

- Functional SPOC for CMS change requests — bridging corporate clients, operations, and technology teams across collections, payments, trade finance, and SCF.
- Documented BRD/FSD for ICICI's CMS collection suite — eCollections (Virtual ID-based automated collections with XML/MIS delivery in webservice, validation, and non-validation modes), Pay2Corp (multi-mode collection with invoice-level ERP reconciliation and up to 10 custom MIS fields), and UPI-based bulk collection workflows.
- Coordinated BA requirements for IPS (Integrated Payment Solution) -documenting duplicate check logic at transaction and file level, authorisation matrix configuration, park-and-hold workflows, and H2H (Host-to-Host) ERP integration specifications for corporate clients.
- Supported NACH Debit and e-NACH mandate lifecycle management — mandate registration, UMRN tracking, return code classification, retry rules, and settlement reconciliation requirements.
- Performed AS-IS/TO-BE process mapping and gap analysis for NEFT/RTGS/IMPS payment workflows, bulk payment file processing (CIB Bulk Upload — salary, vendor, NEFT), and IPS payment automation.
- Coordinated SIT/UAT test cycles for API integrations and system go-lives — defining test scenarios, managing defect logs, and obtaining business sign-off with zero critical post-go-live incidents across all coordinated releases.

Trade Finance & Digital Trade Solutions

- Managed requirements for ICICI's digital trade finance suite — i-BOE (IDPMS Bill of Entry reconciliation and paperless regularisation), e-BG (digital Bank Guarantee via SFMS with real-time authentication), e-LC, and Corporate SWIFT MT798-based LC/BG workflows for large MNC clients.
- Documented business rules and BRD requirements for the complete LC lifecycle (Import/Export) — MT700 issuance, document checking, discrepancy management (UCP 600), IDPM/EDPMS regulatory compliance, and SWIFT MT103/MT202 settlement.
- Supported Bank Guarantee workflows — MT760 issuance, MT767 amendment, MT769 release via SFMS and SWIFT; documented e-BG authentication requirements including unique identifier in cover message field 7037.

- Coordinated regulatory compliance requirements for IDPM and EDPMS reporting under RBI/FEMA — translating mandates into system business rules, i-BOE BoE-to-remittance matching logic, and auto-updation workflows.
- Supported SCF requirements for one anchor corporate client (Bosch Limited) — payable financing / reverse factoring program setup, supplier onboarding, and post go-live issue resolution.
- Collaborated in Agile Scrum teams — sprint planning, backlog grooming, and stakeholder review sessions across multiple concurrent banking technology projects.

B2B Financial Services Consultant — Fintech Alliance & Onboarding | *2020 – 2022*

Liquiloans · Gyandhan · Eduvanz

- Deliberate fintech immersion across three B2B lending platforms — building expertise in financial product structuring, institutional onboarding, and SCF/lending alliance management for Edutech, Ecommerce, and NBFC segments.
- Acquired and onboarded 50+ institutional clients — managing the full lifecycle from NDA execution to facility go-live; coordinating between credit, legal, technology, and operations teams.
- Translated client requirements into product onboarding specifications and process documentation — requirements elicitation and stakeholder coordination skills directly applied to BA practice at ICICI Bank.

Relationship Manager — Banking & Financial Services | American Express · *2015 – 2019*

Standard Chartered · IndusInd Bank

- 4 years across leading financial institutions — building deep banking product knowledge, client needs analysis, and regulatory compliance awareness that forms the foundation of current transaction banking specialisation.
- Managed corporate and retail client portfolios — translating complex banking product requirements into client solutions; developed core stakeholder communication and requirements elicitation skills.

2019–2020: Career transition period — deliberate pivot from retail banking to corporate/transaction banking domain.

Education

B.Tech — Electronics & Communication Engineering

APJ Abdul Kalam Technological University

Certifications

- CBAP Preparation — Starweaver / IIBA (Coursera) · In Progress
- Business Analysis Fundamentals — Online / Internal Training
- Transaction Banking & Cash Management — ICICI Banking Program
- Trade Finance (LC, BG, IDPM, EDPMS) — Domain Training
- Agile Fundamentals & Generative AI — Coursera / Self-Learning

KEY ACHIEVEMENTS

- Coordinated UAT for 10+ transaction banking system enhancements at ICICI Bank with zero critical post-go-live incidents — covering CMS collection platforms, payment workflows, and trade finance digital solutions.

- Documented and implemented ICICI's IPS authorisation matrix and duplicate check logic (transaction + file level) for corporate payment clients — eliminating manual intervention in bulk payment processing.
- Built and documented IDPM/EDPMS compliance workflows including i-BOE BoE-to-remittance matching rules — ensuring 100% on-time RBI regulatory submission for import transactions.
- Supported NACH Debit mandate lifecycle management for corporate collection clients — documenting return code business rules, retry logic, and reconciliation workflows for high-volume recurring debit programs.
- Onboarded 50+ institutional clients (Edutech, Ecommerce, NBFC segments) to fintech lending platforms — managing full lifecycle from NDA to go-live across Liquiloans, Gyandhan, and Eduvanz.
- Supported SCF payable financing program setup — coordinating program requirements across ICICI credit, operations, and technology teams from initial setup through post go-live stabilisation.
