DHANUNJAY MATAM

Business Analyst | Product Manager | Scrum Master

+91-8019437322 Dhanunjaymatam@gmail.com linkedin.com/in/dhanunjay-matam-38465b149

PROFESSIONAL SUMMARY

- 7.3 years of experience in Banking & Financial Services as a Business Analyst, Product Manager, and Agile Practitioner specialising in Transaction Banking, Trade Finance, Payments, Mortgage, and Core Banking (Finacle).
- Deep Trade Finance domain expertise across Letter of Credit (issuance & lodgement), Outward Remittances, Export Receivables, LC Payments, Reimbursement Authorization, Invoice Discounting, and Pre/Post Shipment Finance.
- Proven Scrum Master and Agile Practitioner — facilitated sprint ceremonies, groomed backlogs, authored epics/features/user stories in JIRA, and drove SAFe delivery across cross-geo digital transformation programmes.
- Experienced Product Manager: shaped product roadmaps, managed release coordination, led stakeholder workshops, and translated strategic business goals into prioritised and sprint-ready backlogs.
- Skilled in SOX compliance, internal control testing, AML investigations, sanctions compliance, and financial risk frameworks in banking environments.
- Finacle SME — hands-on across modules: MIIB, MEOB, HIRM, HORM, HSMM, HSMI, HPORDM, HINTTM, HACINT, HACLHM, HFTI; experienced in UAT for Finacle upgrades, patches, and third-party integrations (RTGS/NEFT, SWIFT, Treasury).
- SAFe 5 PO/PM certified; proficient in BRDs, User Stories with Acceptance Criteria, Use Case Scenarios, As-Is/To-Be Process Flows, GAP Analysis, and Sequence Diagrams.

CORE COMPETENCIES

- Trade Finance & Transaction Banking
- Business Requirements & BRD
- Finacle Core Banking (SME)
- UAT Design & Defect Management
- SWIFT Messaging & Payments (RTGS/NEFT)
- Product Roadmap
- User Story & Acceptance Criteria
- Stakeholder Management
- SOX / AML / Sanctions Compliance
- GAP Analysis & Solutioning
- Agile / SAFe / Scrum Facilitation
- Backlog Refinement
- Process Mapping (As-Is / To-Be)
- JIRA · Confluence · ServiceNow · SQL
- Digital Transformation Programmes

PROFESSIONAL EXPERIENCE

Business Analyst / Agile Practitioner · Cognizant Consulting – BFS

May 2022 – Present

Engagement 1: Mortgage Payments Platform — Global Mortgage Major (US)

- Served as Scrum BA within an Agile squad — co-facilitated sprint planning, daily stand-ups, sprint reviews, and retrospectives; championed continuous improvement actions.
- Authored and groomed epics, features, and user stories in JIRA for CMS and Mercury Application payment-platform integrations; defined clear acceptance criteria and Definition of Done.
- Coordinated requirements workshops to map As-Is processes and translate them into to-be workflows, identifying gaps and recommending solutions to engineering and UX/Design teams.
- Analyzed GAAR and Real View Rules Engine (Drools DRL) specifications for new URAR form sections; led regression testing with real MISMO 3.6 files before production deployment.
- Managed UAT cycles — designed test scenarios, tracked defects in JIRA, collaborated with test teams on resolution, and obtained sign-off for go-live.
- Facilitated knowledge-transfer sessions between client stakeholders and development teams; ensured alignment across product, risk, and IT functions throughout the delivery lifecycle.

Engagement 2: Finacle Core Banking Integration — Leading Bank

- Led BA workstream for full Finacle implementation and integration into the bank's core banking system, covering modules for deposits, loans, payments, trade finance, treasury, and CRM.
- Conducted requirements-gathering workshops with banking operations, IT, and compliance stakeholders; translated banking processes into Finacle functional configurations.
- Configured and validated Finacle modules to align with business requirements; monitored daily operations to ensure transaction accuracy and system stability post-go-live.

- Performed UAT for Finacle upgrades and patches — validated data migration accuracy and transaction integrity across customer accounts; documented results and tracked defects to closure.
- Coordinated third-party system integrations (RTGS/NEFT, SWIFT, Treasury); ensured seamless transaction processing and regulatory compliance at each interface point.
- Managed Sarbanes-Oxley (SOX) internal control testing frameworks; supported compliance, AML investigations, and sanctions compliance within banking operations.

Engagement 3: Trade Finance SME — BA for Transaction Banking Products

- Acted as Trade Finance SME: translated stakeholder requirements into JIRA stories, high-level specification documents, use cases, and process/workflow diagrams for trade-related platforms.
- Contributed to product roadmap planning and release coordination for trade-related modules; collaborated with Product Owner to prioritise backlog items by business value and risk.
- Managed stakeholder expectations across product, risk, IT, and business teams through transparent communication, timely status updates, and structured governance forums.

Trade Business Analyst (Global Service Executive) · HSBC, Bengaluru *Apr 2021 – Apr 2022*

- Core Agile team member on Neo Trade System — a digital transformation initiative replacing core banking trade processes with real-time automated solutions (IDPMS, FX Solutions, DRA, Amlock).
- Conducted requirements-gathering workshops with cross-functional stakeholders (Product, Risk, IT, Business); authored BRDs, As-Is/To-Be process flows, and peer-reviewed documentation.
- Engaged stakeholders across multiple business units to capture requirements and communicate data-quality initiative status; ensured traceability from business need through to deployment.
- Owned end-to-end requirements delivery — from ideation and documentation through production deployment and post-go-live hyper-care support.
- Identified and documented business process test scenarios; worked closely with customers and business teams to validate feature launches in the new product.

Project Consultant – Trade Finance · Ernst & Young (E&Y) *Dec 2020 – Apr 2021*

- Supported short-term HSBC Trade Finance engagement: document scrutiny for LC Payments, Outward Remittances, Collections Payments, Buyers Credit, and Suppliers Credit.
- Operated Finacle for Bill Lodgments and Payments; handled foreign bank payment queries and SWIFT message investigations.
- Led Trade Finance domain training sessions and managed a team of 6 operations analysts.

Deputy Manager – Trade Finance Operations · ICICI Bank *Oct 2018 – Dec 2020*

- Managed cross-border and inland payments — LC Payments, Outward Remittances, Collections, Discounting, Pre/Post Shipment Finance — with strong understanding of Clearing & Settlement mechanisms.
- Finacle SME: operated modules MIIB, MEOB, HIRM, HORM, HSMM, HSMI, HPORDM, HINTTM, HACINT, HACLHM, HFTI for lodgments and realizations.
- Handled SWIFT messages and foreign bank queries — BIC, IBAN, ABA Routing, SORT, CNAPS, ACU Mechanism, NOSTRO/VOSTRO accounts; processed high-value payments (ECB, FDI, ODI, AD-to-AD).
- Built and retained profitable client relationships in a complex, fast-changing regulatory environment.
