• Source-to-Target Data Mapping

• Agile / Scrum Methodology

• Jira & Confluence

• API Requirements Documentation

• SIT / UAT Coordination

• Data Validation & Reconciliation

PROFESSIONAL EXPERIENCE

HDFC BANK LTD – Senior Manager (Business Analyst) | Bangalore | Jan 2023 – Jul 2023

• Led business analysis for enterprise-wide ISO 20022 migration, transitioning SWIFT MT103/MT202 payment flows to MX pacs.008 and pacs.009 under the CBPR+ framework

• Performed impact assessment across payment lifecycle systems including core banking, reconciliation platforms, and reporting systems

• Defined source-to-target data mapping between MT and MX message structures

Project: ISO 20022 Migration (MT → MX)

Duration: Mar 2023-Jul 2023

Transition legacy SWIFT MT messages to ISO 20022 MX messaging for cross-border payments.

Responsible for requirements, impact assessment, and message mapping.

Enabled compliance with global ISO 20022 migration timelines and improved structured payment data processing.

PRIMADOLLAR / MODIFI – Manager (Business Analyst) | Bangalore | 2018 – 2021

• Acted as domain SME for Trade Finance and Supply Chain Finance platforms integrated with cross-border payment systems.

• Led requirement workshops with global stakeholders to document AS-IS and TO-BE processes for payment settlement workflows.

• Performed gap analysis on structured vs unstructured payment data impacting reconciliation and reporting.

• Collaborated with product and engineering teams on payment integration layers and transaction processing workflows.

• Supported UAT execution validating end-to-end payment lifecycle including settlement, reconciliation, and reporting accuracy.

Project : Digital Invoice Factoring Platform

Project duration: 2018 -2021

Led the design and implementation of a digital trade finance platform enabling exporters to access invoice factoring and working capital financing.

Key Contributions

Designed end-to-end digital workflows for invoice upload, verification, and financing approval

Analysed market competitors including Drip Capital and MODIFI to benchmark product capabilities

INDUSIND BANK LTD – Deputy Manager (Business Analyst) | Delhi NCR | 2015 – 2017

• Gathered functional requirements for international remittance and SWIFT-based cross-border payment systems.

• Defined validation rules for SWIFT MT103 and MT202 message formats ensuring compliance with regulatory requirements.

• Supported workflow digitization initiatives for payment processing systems.

• Coordinated SIT and UAT cycles validating payment message formats and reconciliation outputs.

Project Name: Trade Remittance Process Enhancement

Project duration: 2015 – 2017

Enhanced inward and outward trade remittance workflows for retail branches to reduce manual processing errors and improve compliance with international remittance regulations.

Key Contributions

Implemented process improvements to reduce operational errors and compliance rejections

Collaborated with branch operations and technology teams for phased rollout

ICICI BANK LTD – International Banking Operations & MIS | Mumbai | 2008 – 2014

• Managed international banking operations including SWIFT payment processing and Nostro reconciliation.

• Supported core banking transformation programs impacting settlement and reporting modules.

• Performed data validation and reconciliation ensuring accuracy of cross-border payment settlements.

• Recognized for operational excellence and process improvement initiatives.

Project Name : Outward Remittance Modernization

Project Duration: 2012 – 2014

Led the modernization of a centralized outward remittance processing system to streamline cross-border payments and ensure compliance with FEMA regulations.

Key Contributions

Analysed existing outward remittance workflows and identified process inefficiencies

Documented business requirements for digitizing remittance approval and processing flows

Implemented automated validations for regulatory compliance and documentation checks

Reduced processing turnaround time and improved operational efficiency for international remittances

EDUCATION

Executive Post Graduate Program in Financial Management – IIM Kozhikode | 2021 – 2022

PG Diploma in Banking Operations & Insurance – NIIT IFBI | 2008

Bachelor of Science – Mumbai University | 2007
