MOHAMED YOUNUS

AI Project Manager | Enterprise AI | GenAI Delivery

+91-9677216945 | younusmohamedr@gmail.com | Chennai, Tamil Nadu | Link

PROFESSIONAL SUMMARY

Results-driven Project Manager with around 8 years of experience delivering AI/ML, Generative AI, Conversational AI, and Enterprise SaaS programs. Proven expertise in leading end-to-end AI project delivery, translating business requirements into scalable technical solutions, and driving Agile execution across cross-functional Engineering, Product, Data Science, and Customer teams. Experienced in AI agents, LLM-based systems, RAG-enabled platforms, and Human-in-the-Loop (HITL) workflows, with a strong focus on stakeholder management, governance, risk mitigation, and operational excellence. Demonstrated success in delivering complex AI initiatives from concept to production, improving quality, optimizing delivery, and driving measurable business outcomes.

CORE COMPETENCIES & SKILLS

- **Project & Program Management:** AI Project Delivery, Agile & Scrum, Enterprise SaaS Implementation, Project Planning & Execution, Stakeholder Management, Cross-functional Leadership, Requirements Gathering, Sprint & Release Planning, Risk, Issue & Dependency Management, Resource & Capacity Planning, Change & Scope Management, Customer Onboarding & Implementation, UAT & Go-Live Management, KPI & SLA Management.

- **AI & Automation:** Generative AI (GenAI), Large Language Models (LLMs), AI Data Operations, RLHF (Reinforcement Learning from Human Feedback), Human-in-the-Loop (HITL), Prompt & Response Evaluation, Multimodal AI Evaluation, AI Quality Assurance, AI Data Governance, AI Workflow Optimization, AI Model Validation, AI Safety & Content Evaluation, Enterprise AI Implementation.

- **Tools**: Jira, Confluence, AWS, Azure DevOps, Microsoft Project, Trello, Microsoft Excel, Power BI, Google Sheets, SQL, OpenAI, Claude, Google Gemini.

- **Industry Experience**: Enterprise AI, AI Agents, Conversational AI, Enterprise SaaS, Contact Center AI, Generative AI, Multilingual AI, Government Digital Projects.

PROFESSIONAL EXPERIENCE

Generative AI Specialist (Freelance) **December 2024 - Present**

Uber AI Solutions, India

- Completed **500+** LLM evaluation tasks utilizing RLHF and human feedback methodologies to enhance model accuracy, alignment, and overall performance.
- Maintained **98%+ quality scores** with a **100% task acceptance rate** by consistently delivering precise, guideline-compliant assessments.
- Assessed AI-generated text and multimodal outputs for reasoning, factuality, safety, instruction adherence, and user intent across diverse real-world scenarios.
- Identified edge cases, ranked model responses, and provided structured feedback to support continuous improvement of Generative AI and multimodal models.
- Adapted to evolving evaluation guidelines and model capabilities, ensuring consistent, high-quality assessments across rapidly changing AI workflows.

Project Implementation Manager **July 2025 - Oct 2025**

Pace Wisdom Solutions Pvt Ltd, Bangalore. ***(Client: CRESTA, US)***

🏆 **KEY DELIVERY ACHIEVEMENTS:**

- Successfully delivered **5 concurrent enterprise AI** implementation programs within **3 months**, enabling phased adoption across customer organizations with **500–1,000+ end users** per implementation.
- Achieved **100% successful go-live** across assigned AI implementation projects through proactive stakeholder management, risk mitigation, and structured post-launch hypercare support.

Roles and Responsibilities:

- Led end-to-end implementation of enterprise AI SaaS solutions, managing project planning, execution, phased rollout, go-live, and hypercare across global client engagements.
- Partnered with customer leadership to define implementation roadmaps, use cases, deployment strategies, and success criteria aligned with business objectives.
- Acted as the primary liaison between customers and cross-functional Product, Engineering, Sales, and Customer Success teams, translating business requirements into scalable AI solutions.
- Managed project governance through milestone tracking, risk and issue management, executive status reporting, and stakeholder communication to ensure successful implementations.
- Delivered **GenAI-powered voice and chat AI agent implementations (CRESTA)**, leveraging **RAG-based enterprise SaaS** capabilities while driving customer onboarding, user enablement, production readiness, and enterprise adoption.

Project Manager **July 2024 - Oct 2024**

Giggso India Private Limited, Chennai

🏆 **KEY DELIVERY ACHIEVEMENTS:**

- Delivered **~80% of the SHAY GenAI RAG platform within 3 months** through disciplined Agile execution and cross-functional collaboration.
- Achieved **90% backlog completion** by optimizing sprint planning, dependency management, and delivery governance, accelerating product readiness for enterprise deployment.

Roles and Responsibilities:

- Directed end-to-end delivery of **SHAY**, an **AI Agent** platform powered by **LLMs and Retrieval-Augmented Generation (RAG)**, along with **Trinity**, an **AI/ML monitoring** platform, translating business requirements into scalable technical solutions from discovery through production.
- Owned Agile project execution, including project planning, sprint planning, backlog prioritization, release management, Scrum ceremonies, and executive delivery reporting.
- Collaborated with Business Analysts, Product, UI/UX, Data Science, ML Engineering, QA, and DevOps teams to define AI use cases, prioritize features, and deliver production-ready AI capabilities.
- Managed project scope, timelines, risks, dependencies, stakeholder communication, and release governance, ensuring alignment with business objectives and successful product delivery.
- Oversaw SDLC execution, deployment readiness, DevOps coordination, and UAT activities, ensuring reliable releases, production stability, and continuous product improvements.

AI Project Lead **May 2017 - June 2024**
Amazon (Artificial Generative Intelligence), Chennai.

🏆 **KEY DELIVERY ACHIEVEMENTS:**

- Improved **Right First Time (RFT) quality** by **25%** through workflow optimization, automation initiatives, and strengthened quality governance across AI data programs.
- Reduced production defect rates by **70%** through **Lean Six Sigma**-driven quality improvements, audit governance, and root cause analysis.
- Supported delivery of **50+ AI feature enhancements** and onboarding of **10+ AI initiatives** across Alexa programs by enabling high-quality multilingual training datasets and cross-functional execution.
- Led GenAI data initiatives within **Amazon SageMaker Studio**, managing **100K+ prompt-response pairs** to support LLM training, RLHF, prompt evaluation, response validation, and model quality improvement.
- Managed multilingual AI delivery programs supporting **9 Indic languages** while leading teams of **60+ specialists** to consistently achieve SLA, quality, and productivity targets.

Roles and Responsibilities:

- Directed end-to-end delivery of AI programs supporting **Alexa AI, Alexa Shopping, Amazon Music, GenAI, and multilingual AI initiatives**, from data preparation to production readiness.
- Led **AI data lifecycle** activities including data collection, annotation, quality assurance, audit governance, and dataset validation for AI/ML model development.
- Partnered with Product, Engineering, Research, QA, and Linguistics teams to deliver scalable AI workflows, feature enhancements, and production-ready datasets.
- Managed Agile execution across multiple AI initiatives, including sprint planning, backlog prioritization, release management, risk mitigation, and stakeholder communication.
- Led multilingual **Lexicon** programs supporting **9 Indic languages** to enhance speech recognition, pronunciation, shopping, and conversational AI experiences.
- Contributed to **Generative AI initiatives** within **Amazon SageMaker Studio**, supporting prompt engineering, RLHF, response evaluation, and LLM validation.
- Managed and mentored **60+ AI specialists**, driving SLA compliance, workforce planning, performance optimization, training, and quality governance.
- Developed KPI dashboards, executive reports, and governance frameworks while collaborating with global stakeholders across India and the US to drive successful AI program delivery.

CERTIFICATIONS

- Project Management Institute - **Project Management Professional (PMP®)** (In Progress | Expected Aug 2026)
- Project Management Institute - **Generative AI for Project Managers** (2024)
- Coursera - **Google Dialogflow CX Bot Building** (2025)
- Amazon - **Agile Scrum Fundamentals** (2024)
- Amazon - **Project Management Foundations** (2023)
- Amazon - **Lean Six Sigma** (2023)

EDUCATION

BACHELOR OF ENGINEERING
Specialization: **Mechanical Engineering**
Anna University | 2013 - 2017

MASTER OF BUSINESS ADMINISTRATION
Specialization: **Business Data Analysis**
Madras University | 2024 - 2026
