Noorjahan Begum

PMP, CSM | Certified Project Manager & GenAI Specialist

Email ID: noor19185@gmail.com; Phone No.: +91-7259856481

Career Objective

- Certified **PMP** and **CSM**, offering a strong foundation in both Waterfall and Agile methodologies for project leadership.
- Skilled in **Clarity PPM**, with practical experience managing configurations, workflows, and reporting administration.
- Emerging **Generative AI Specialist**, leveraging AI tools to enhance project planning, predictive risk management, and stakeholder communication.
- Committed to excelling in leadership-focused roles that blend disciplined project execution, Agile facilitation, and AI-enhanced decision-making to drive smarter project outcomes and stakeholder impact.

Professional Synopsis

Certified **PMP** and **CSM** with over 12 years of IT project management experience, excelling in enterprise systems delivery—particularly CA Clarity PPM consulting and SAP (SuccessFactors, HCM) implementations—across pharmaceuticals, banking, education, and automotive sectors.

- **Clarity PPM Expertise**: Demonstrated proficiency in versions v13–v16 of Clarity PPM, including process definition, configuration, demand planning, TIMS testing, feasibility studies (v14.2, v14.3), portlet enhancements, and troubleshooting of Jaspersoft and MSP integrations.
- **Technical Toolkit**: Skilled in SQL querying, Oracle database administration, web design, testing with TIMS, and systems integration.
- **Strategic & Analytical Leadership**: Strong abilities in project scoping, business modeling, risk assessment, process improvement, and cross-functional deployment. Experience leading teams and acting as a bridge between management and technical delivery.
- **Generative AI Practitioner**: Recently trained in applying AI tools to elevate sprint planning, predictive risk management, and stakeholder communication.
- **Results-Driven Delivery**: Passionate about aligning technology with business goals to improve efficiency, reduce costs, and optimize outcomes.

Key Global Clients Served

Managed successful projects and delivered impactful solutions for high-profile global organizations including **Covance (Laboratory Services)**, **Novo Nordisk (Pharmaceuticals)**, **Bank of Ireland (Banking)**, **Johnson Controls Inc. (Automotive & Building Technology)**, **Macmillan Learning (Education)**, and **GlobalFoundries (Semiconductors)**.

Core Competencies

- **Strategic Leadership & Team Enablement**
  Inspiring cross-functional, geographically distributed teams; championing high performance and collaborative success.
- **Project & Portfolio Governance (Clarity PPM)**
  Expertise in CA Clarity PPM implementation, process definition, demand planning, portlet enhancements, and troubleshooting reporting integrations.

- **Project Planning & Financial Discipline**
  Mastery in strategic planning, budgeting, financial management, change, release, and configuration oversight.
- **Delivery Agility & Methodological Rigor**
  Skilled in Agile and Waterfall frameworks; Certified Scrum Master (CSM) ensuring disciplined and responsive delivery.
- **Stakeholder, Vendor & Executive Engagement**
  Effective communication across stakeholders, vendors, and leadership—aligning project execution with organizational priorities.
- **Risk, Escalation & Issue Resolution**
  Proactive risk identification, mitigation planning, and efficient problem resolution.
- **Business Analysis & Requirement Articulation**
  Facilitates business modeling, requirements engineering, and strategic reporting to support data-driven decision-making.
- **Cloud Transformation Leadership**
  Experience guiding enterprise migrations to AWS and GCP, aligning IT landscapes with future-ready infrastructures.
- **Generative AI for Project Innovation**
  Proficient with tools such as ChatGPT, Gemini, Claude, GitHub Copilot, Zapier, Julius—leveraged for sprint forecasting, automation, backlog optimization, and advanced reporting.
- **Collaboration & Productivity Enablement**
  Advocate for streamlined teamwork using tools like JIRA, Asana, Trello, ClickUp, Confluence, and MS Project.

Technical & Domain Expertise

- **Generative AI & Automation Tools:** ChatGPT, Gemini, Claude, GitHub Copilot, Zapier, Julius
- **Project Management & Collaboration Tools:** JIRA, Confluence, Microsoft Project, Slack, Primavera, Asana, Trello, ClickUp
- **Ticketing & Monitoring Systems:** ServiceNow (SNOW), BMC Remedy, HP Service Manager, CSM, Control-M, AutoSys, Oracle Enterprise Manager (OEM)
- **Databases & Programming:** Oracle (10g/11g/12c), Microsoft SQL Server, PostgreSQL, MS Access, SQL, C, Basic Java, HTML, Web Programming
- **Operating Systems:** Windows XP/7, Unix, Linux
- **Industry Experience:** Pharmaceuticals, Banking, Education, Automotive , Consulting
  System Integration, Cloud Migration, Enterprise Software Deployment

Highlights

✓ Program and Project Management	✓ Strategic Business Planning
✓ Project Planning and Scheduling	✓ PMO Strategies, Best Practice and Offerings
✓ Software Development and Management	✓ Business Analysis & Consulting
✓ Team Leadership and Motivation	✓ Staffing, Training and Mentoring
✓ Process Redesign and Improvement and Corporate Change Management	✓ Efficient Resource and Team Managemet
✓ Cross-Functional Collaboration	✓ Query development and optimization
✓ Systems Implementation	✓ Business Process Reengineering

- ✓ **Generative AI Tools & Applications:** ChatGPT, Gemini, Claude, GitHub Copilot, Zapier, Julius – applied for sprint forecasting, backlog optimization, workflow automation, advanced reporting & stakeholder communication
- ✓ CA Clarity PPM, 13.x, 14.x, 15.x Clarity Studio & NSQL, XOG, Gel Scripting, SAP Success factor, HP PPM 9.1 (Application and Workbench)

Work Experience

Tech Mahindra –PROJECT MANAGER	**April 2021- Oct 2025**

Accomplished Project Manager | PMP | CSM with 12+ years of experience delivering business-driven CA Clarity PPM solutions, leveraging industry-standard methodologies and tools—including Primavera—to plan, track, and execute complex programs across Agile and Waterfall environments. Recently integrated Generative AI practices to enhance project forecasting, reporting, and stakeholder engagement.

Key Achievements & Responsibilities:

- Led full lifecycle CA Clarity PPM implementations and enhancements, leveraging Generative AI tools (ChatGPT, Gemini, Claude, GitHub Copilot, Zapier, Julius) to streamline test case design, automate reporting, accelerate documentation, and improve stakeholder communication.
- Managed Clarity PPM modules including Financial, Resource, and Demand Management, ensuring accurate financials, time tracking, and optimized resource allocation.
- Applied Primavera for planning, scheduling, and resource optimization across multi-phase, global projects.
- Developed and maintained detailed project plans, budgets, and schedules, ensuring timely delivery and alignment with organizational objectives.
- Oversaw change management, SIT/UAT testing, cutover planning, and issue resolution to enable smooth project delivery.
- Acted as the primary liaison for leadership, IT teams, vendors, and steering committees, ensuring transparent communication and timely decision-making.
- Conducted system health checks, application monitoring, and troubleshooting, maintaining operational efficiency.
- Ensured Quality Compliance Index (QCI) adherence through documentation, audits, and governance support.
- Key Clients: Johnson Controls Inc., GlobalFoundries, Macmillan Learning

HCL Technologies LTD – Software consultant – PMO **Hyderabad**	**January 2020 – March 2021**

Project Manager | PMP | Scrum Master with extensive experience delivering business-driven CA Clarity PPM solutions across multiple domains, serving as Scrum Master, PMO lead, and Clarity functional consultant.

Key Achievements & Responsibilities:

- ➢ Led full lifecycle CA Clarity PPM implementations and enhancements, managing modules including Financial, Resource, and Demand Management to oversee project financials, timesheets, and milestone tracking.
- ➢ Facilitated Agile ceremonies, PI/PO planning, and release readiness checks for Clarity PPM teams.
- ➢ Developed comprehensive project plans, budgets, dashboards, and schedules to optimize delivery across multiple concurrent projects.
- ➢ Acted as primary liaison for leadership, IT teams, vendors, and steering committees, ensuring alignment on scope, priorities, and timelines.

- Oversaw change management, SIT/UAT testing, cutover planning, and issue resolution to ensure smooth project delivery.
- Conducted system health checks, prepared audit artifacts, and tracked OKRs/KPIs for leadership reporting.
- **Tools:** CA Clarity PPM, JIRA, Confluence, Microsoft Project, MS Excel, Workwise, Empower
- **Key Clients:** Novo Nordisk, Bank of Ireland

CA technologies - Solution center consultant **Hyderabad**	**Oct 2015 to Dec 2019**

Supported global clients in delivering business-driven CA Clarity PPM solutions, enhancing project governance, system performance, and reporting capabilities.

Key Achievements & Responsibilities:

- Specialized in troubleshooting and enhancing **Clarity PPM modules**, including Project, Resource, Financial, and Demand Management.
- Designed and developed custom portlets and reports for program managers, improving visibility, tracking, and decision-making.
- Participated in pre- and post-upgrade activities across Clarity versions and supported ongoing system enhancements and cloud initiatives.
- Managed recurring operational tasks, including daily application health checks, log analysis, issue tracking, and stakeholder status communication.
- Acted as a key liaison for leadership, IT teams, and vendors to ensure alignment and timely resolution of issues.
- **Key Clients:** Covance, Novo Nordisk

Cognizant Technology Solution – Senior system Executive **Bengaluru**	**July 2013 to sept 2015**

CA Clarity PPM Specialist – L2/L3 Support (v13.1 & v13.3)
Ensured seamless operations and optimal performance of **CA Clarity PPM** for enterprise users.

Key Responsibilities & Achievements:

- Provided L2/L3 support for **CA Clarity PPM**, managing incidents, service requests, and troubleshooting via Remedy and internal COE ticketing systems.
- Designed, developed, and maintained **Clarity dashboards, portlets, and data queries**, enhancing visibility, reporting, and decision-making.
- Supported time tracking, report generation, change request resolution, and **custom object configuration** within Clarity PPM.
- Actively participated in unit testing and UAT for Clarity PPM system enhancements, ensuring smooth deployment and operational continuity.

Ubiquantum Technologies – Process manager **Bengaluru**	**July 2012 – March 2013**

Process Manager
Managed end-to-end operations and CMS activities for high-traffic web portals, ensuring timely content updates, intuitive site design, and seamless maintenance for education and media websites.

Coordinated with cross-functional teams to implement process improvements, optimize site performance, and enhance user experience. Developed professional-quality templates and contributed to early-stage web application development, enabling

scalable, efficient, and visually appealing web solutions. Trained and guided team members on best practices for content management and design standards, fostering a culture of quality and operational excellence.
