Akshay Shinde

SENIOR BUSINESS ANALYST – CONVERSATIONAL AI & DIGITAL JOURNEYS

Profile

Seasoned Business Analyst with 13 years of experience driving digital initiatives in banking and fintech. Adept at designing conversational AI journeys (chatbots and voice bots), streamlining account onboarding processes, and leading cross-functional collaboration. IIBA CBAP-trained, with a strong focus on delivering customer-centric, tech-driven solutions through effective documentation, planning, and stakeholder engagement.

Employment History

Senior Technology Manager, IDFC First Bank

DECEMBER 2023 — PRESENT

Conversation AI & Journey Design

- Designing end-to-end conversational journeys for chatbots and voice bots powered by NLP and Gen AI large language models (LLMs).
- Creating detailed process flows in Microsoft Visio with integrated API calls, covering positive, alternate, and exception scenarios.
- Writing Business Requirement Documents (BRDs) with clearly defined guardrails and logic flows.
- Collaborating with cross-functional teams to ensure alignment of journey design with product and customer experience goals.
- Currently developing both universal and narrow bot journeys to support varied user intents and business use cases.

Key Projects:

- **Collection Voice Bot Journey:** Designed and implemented a voice bot flow for loan and credit card collections, enabling automated payment reminders, intent recognition for promises-to-pay, and escalation handling for non-responsive users. Integrated with collection systems and CRM for real-time status updates and call outcomes.
- **IPO Purchase via WhatsApp Banking:** Designed conversational journey for seamless IPO application with integration to core banking APIs.
- **AMB Reminder via Voice Bot:** Enabled savings account top-up using voice interaction, handling account validation and payment workflows.
- **IRA Bot – 202 use cases** Built the 'IRA Bot' with 202 use cases to support customer queries related to financial and non-financial charges using natural language processing (NLP).

Business Analyst, Kotak Mahindra Bank

JUNE 2021 — NOVEMBER 2023

Digital Account Opening

- Drafted Business Requirement Documents (BRDs) and conducted feasibility studies based on business and operations needs.
- Engaged with IT, Business, Operations, and internal teams to drive process improvements and evaluate potential offerings.
- Actively conducted and participated in weekly review meetings with IT and business users to track progress and resolve implementation challenges.

Business Analyst, Xebia IT (IDFC First Bank)

DECEMBER 2019 — MAY 2021

Digital Transformation

- Driving digital initiatives across Internet Banking, Mobile Banking, Micro ATMs, Digital Account Opening, Pre-Login Journeys, and Campaign Management to support India's digital economy vision.

Key Projects

- **Savings Account Opening for Existing AUS (Corporate) Customers in TCS Bancs:** Developed a digital journey enabling corporate AUS customers to receive pop-up prompts for opening a savings account.
  Displayed pre-filled customer data with editable fields for ease of input.
  Enabled real-time account opening post-submission.
- **Locked Fund via Digital Channels (Lien Marking in TCS Bancs):** Implemented lien marking workflow using channel integration to interact with TCS Bancs core system.
  Enabled channels to trigger recovery hold, set/remove deposits, and enquire hold services via API calls.

Business Analyst, Fino Payment Bank

JUNE 2019 — DECEMBER 2019

Roles & Responsibilities

- Drafted Business Requirement Documents (BRDs) and conducted feasibility studies aligned with business and operational needs.

Business Analyst, Quality Kiosk. (IDFC First Bank)

JUNE 2016 — JUNE 2019

Digital Transformation – Retail & Business Banking

- Gathered business/ops requirements and conducted feasibility analysis for new digital offerings.
- Created test scenarios based on Business Requirement Documents (BRDs) and Functional Specification Documents (FSDs).
- Reviewed FSDs and solution approach documents for completeness and impact analysis.
- Performed Functional and Usability Testing to ensure quality and user-friendliness of digital journeys.

Key Projects – Digital Acquisition

- **FD Account Opening via eKYC in TCS Bancs:** Designed and implemented FD opening via Aadhaar OTP-based eKYC, enabling:
  Real-time account creation in CBS
  Funding through CC Avenue
  T+1 FD booking in CBS post-funding

- **Savings Account Opening - EKYC:** Developed Aadhaar OTP-based account opening with:
  Real-time CBS integration
  Funding through CC Avenue
  Debit card selection (Signature/Platinum) post-funding
  Cheque book issuance enabled by signature upload functionality
- **Dormant & Inactive Account Identification in TCS Bancs:** Built logic to track account status based on last financial transaction:
  Accounts inactive after 12 months
  Accounts marked dormant after 24 month

Business Analyst, HDFC Bank

DECEMBER 2014 — JUNE 2016

Key Projects

- **Universal Kit:** Developed a common onboarding kit for all account types; implemented product transfer functionality.
